

## 4x5 20 Key Matrix Membrane Switch Keypad Keyboard

### Specification

Panel Material: 0.175MPC sand surface

Circuit Material: 0.125mm PET full transparent

Back Adhesive : White Adhesive

Panel Material : key plane

Height of key pack: 0.3mm

Button Use: >100,000 times

Key strength: 280g

Loop Resistance: <70  $\Omega$

Operational Temperature : -15~+65°C

Connector: 2.54mm pitch

Environmental requirements: SGS

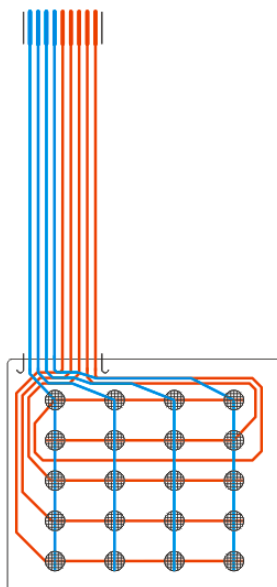

Product Use Life: >12 months

Profile size :85.00mmX73.00mm( $\pm 0.2$ mm)

From guiding hole to pin port: 112.00mm ( $\pm 0.5$ mm)

Product thickness : 1.00mm( $\pm 0.02$ mm)
